

# May 2020

Distributed Acoustic Sensing Research Coordination Network Steering Committee Call  
May 14, 2020 10 am ET

In attendance: Herb Wang, Bob Woodward, Danica Roth, Eileen Martin, Jonathan Ajo-Franklin, Luke Zoet, Matt Becker, Nate Lindsey, Scott Tyler, Whitney Trainor-Guitton, Yingping Li, Zhongwen Zhan, Zuyuan He, Kasey Aderhold

## Agenda

- Welcome Danica Roth to Steering Committee and lead for Geomorphology (Wang)
- Working Group Charges, Updates, and Publication/Experiment Plans (Leads for each Working Group or designated representative)
- First Virtual Workshop Planning (Martin, Lindsey, Fratta, Tyler)
- White Paper(s) for SAGE-GAGE Dear Colleague Letter (Lindsey)

## Action Items

- AI(All): Send feedback to organizers (Martin, Lindsey, Fratta, Tyler) about the format and plan for the 2020 virtual workshop by 5/22.
- AI(Scott): Go through the current working group leads/members and survey diversity, then report back and the steering committee can see what can be done to correct imbalances.
- AI(Kasey): Make master list of names/emails available to Working Group leads.

## Recommendations

- Focusing on developing publications within the working groups may result in exposure to different domains relevant to DAS, rather than trying to collect them all into a general DAS publication that may be overlooked.
- Submissions to the NSF Dear Colleague Letter on the future SAGE/GAGE facility (<https://www.nsf.gov/pubs/2020/nsf20037/nsf20037.jsp>) are encouraged either as individuals or as groups in the DAS community.
