Action Items

- AI(Working Group Leads): Share established meeting times w/ the group for posting publicly.
- AI(Working Group Leads): Ask working groups to provide the Data WG with example data products that would be useful (e.g. stacks, decimated data, event-snippets).

Recommendations

- Recommendation: Table the AGU Wiley publication option for now but proceed with proposal/development of a written publication addressing aspects of the DAS RCN (e.g. open-access handbook, special issue/collection, white papers).
- Recommendation: Encourage working group leads to send update via email to be included in the meeting if not able to attend the call.
